Changing the Landscape of Self-funded Healthcare

Low cost, high-quality and broad access to care are within reach.

Optimize member satisfaction with access to the UnitedHealthcare Network.

Develop a strategic approach to the cost continuum, maximizing savings and minimizing disruption.

Lower costs and promote positive user-provider experiences with an evolved RBP model.

The Caprock Difference

Caprock HealthPlans works to address the root of health plan problems to create a foundation for long-term financial security and employee health.

Our suite of products allows us to maximize cost efficiency by providing access to high-quality networks specifically tailored to protect the integrity of each client's health plan.

Solutions that Stand Out

Access to the UnitedHealthcare Network

Caprock is one of the only independently-owned TPAs in the country offering nationwide access to the UnitedHealthcare Network. Our partnership with United allows us to bring clients broad PPO access at deep discounts for long-term, sustainable health plans.

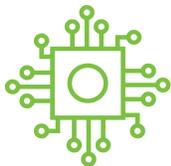

Evolved Reference-Based Pricing

Times change, and so should your Reference-Based Pricing plan. We've upgraded the standard RBP model to create more positive reference-based environment for all parties involved. With an emphasis on lowered costs, elevated user experience and fair reimbursement, we've developed sustainable RBP for the future.

Cash Pay Option

Caprock's Cash Pay option is designed to improve member experience and remove unnecessary administrative costs. Providers and employees agree upon a "cash pay" rate for a service; documentation is submitted through the plan administrator's process. Members receive no bill and providers submit no claim.

Expert Claims Administration

State-of-the-art technologies allow us to provide clients with the full suite of necessary services, including customized claim routing, flexible benefits, automated edits, real-time processing and more.

Our Complete Suite of Services:

Don’t Hope for the Best – Plan for it.

Caprock’s executive team draws on extensive backgrounds in network development, providing unique health plan solutions focused on broad access at deep discounts for sustainable results. Hope is not a strategy. Caprock provides clients with custom strategic solutions for sustainable results.

Individualized network options for lower premiums and greater benefits.

Improved Reference-Based Pricing for better user experience and fair provider reimbursement.

Innovative cost containment services for promoting continued member health.

Integrated claim and benefit administration for meeting the needs of every unique client.

Finally, employers can experience health plans with the cost, quality and access they’re looking for – no sacrifices.

We Take Customer Service Seriously

Service is at the core of everything we do at Caprock. To prove it, we base our fees on how well we deliver on 4 critical outcomes:
